AI Offerings

Pivota

- Pivota, an AI-driven SDLC accelerator, shortens delivery timelines and reduces costs while maintaining security and quality. It enables organizations to modernize systems faster and achieve reliable outcomes with confidence.

ReadySetAI Playbook

- The ReadySetAI Playbook is a practical framework that guides organizations from AI vision to implementation. It helps teams reduce risk, align stakeholders, and accelerate adoption with clear steps and proven strategies.

Key Experiences

● Artificial Intelligence | Judiciary AI Adoption

- Challenge: Federal AI adoption faced risks around compliance, data security, and legacy integration.
- TechSur's Approach: Established governance frameworks, sandbox labs, and multi-cloud AI environments.
- Outcome: Enabled secure, compliant AI adoption with efficiency gains and stronger mission confidence.

● Artificial Intelligence | IMLS First Check Tool

- Challenge: Manual grant reviews were slow and resource-intensive, taking weeks to complete.
- TechSur's Approach: Built an AI-driven NLP and RPA tool to automate 95% of First Check rules.
- Outcome: Reduced review time from weeks to hours, freeing staff for higher-value work and improving accuracy.

● Customer Experience/Digital Services | GSA SAM.gov Modernization

- Challenge: GSA relied on 10 aging systems, creating data silos and inefficiencies in vendor management.
- TechSur's Approach: Unified systems into a cloud-native platform with UEI integration and automated pipelines.
- Outcome: Streamlined operations, onboarded 80,000+ vendors, and improved user experience with 90% automation.

● Digital Services | USCIS Immigration Dashboard

- Challenge: Legacy systems and paper-based processes slowed application reviews and limited visibility.
- TechSur's Approach: Retired 12 systems, digitized 69% of paper workflows, and optimized CI/CD with microservices.
- Outcome: Processed nearly 1M applications in a year, increased efficiency by 19%, and transformed case management.
